Best Practices for UAS Operations

Although not specified in Part 107 Rules, the CFC/City suggests the following for optimum safety:

- Use of a visual observer.
- UAS operator should scout location site(s) of proposed drone activity in advance of filming.
- UAS may fly only over specific location, not the 0.5mile FAA radius. No exceptions.
- Operator should be at least 21 years of age.
- Operator should possess a Motion Picture & Television Operations Manual.
- Operator should have previous film set experience.

****IMPORTANT****

Please allow up to seven (7) business days for the CFC/City to process requests for film permits that include the use of drones, and be aware that the process will **not** begin until all required documentation has been submitted.

Also note that meeting all qualifications required of a Remote Pilot does not guarantee that permission to fly a small UAS will be granted. (For State facilities CFC State partners (Caltrans, State Parks, etc.) review applications on a case-by-case basis and consent or deny requests based on location conditions and specific agency guidelines.)

Please scan and submit this completed form, along with all accompanying documentation to filming@sws-inc.com or fax to 805-495-7621.

Note: Production Company or UAS Operator shall contact the Los Angeles Sheriff Air Operations at (562)421-2701 one half hour prior to UAS activity.
